

*With Maximum, you're not just installing a security system.*

*You're empowering yourself to protect what truly matters...*

## MAXIMUM PRODUCT CATALOGUE

**READY TO ENHANCE YOUR SECURITY?**

### WHO WE ARE

With decades of experience in the security alarm systems industry and millions of successful installations worldwide, we possess an unparalleled expertise in designing, developing, manufacturing, and maintaining advanced security solutions. Our systems have earned a global reputation for their exceptional reliability, long-lasting durability, and user-friendly operation, making them a trusted choice for homes, businesses, and organizations alike.

Founded in 1984 and headquartered in Israel, Maximum is a trusted leader in the design and manufacturing of advanced hybrid, hardwired, and wireless intruder alarm systems and peripherals.

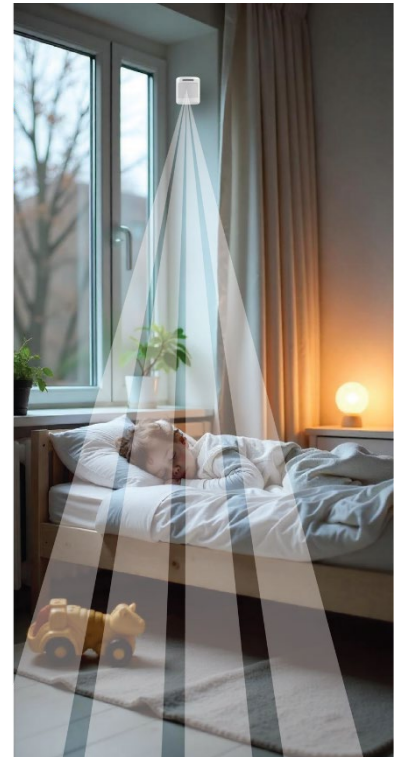

With every product developed and assembled in-house, Maximum offers reliable, high-performance solutions tailored to meet the security needs of residential, commercial, and industrial facilities of all sizes.

### FROM MILITARY INNOVATION TO MAXIMUM SECURITY: THE STORY BEHIND OUR TECHNOLOGY

**Maximum Security** is a leader in advanced security solutions, leveraging years of military intelligence and defence technology expertise.

Our journey started with cutting-edge intelligence technology and evolved into a global leader in security innovation. Our expertise in classified military technology allows us to deliver commercial solutions with an edge over competitors.

Today, we bring these advanced technologies to the private sector, offering unmatched security solutions for businesses and homes.

## DESIGNED FOR EVERY USER

At Maximum, our products and systems are crafted to meet the unique needs of monitoring companies, installers, and end-users, ensuring a seamless experience at every step:

- **Accelerated Setup:** Quick and hassle-free installation saves time and effort.
- **Intuitive Operation:** User-friendly interfaces simplify system management.
- **Low Maintenance:** Built for reliability, reducing ongoing upkeep.

By combining convenience with exceptional security performance, we deliver systems that are easy to use while guaranteeing uncompromised customer satisfaction.

## PRECISION MANUFACTURING, UNMATCHED QUALITY

Maximum operates a state-of-the-art manufacturing facility located in the heart of Israel. Our dedication to excellence is reflected in every step of our production process:

- **Premium Components:** Key parts sourced from Japan and Europe to ensure the highest standards of reliability and performance.
- **Stringent Quality Control:** Rigorous testing and inspection ensure that every product meets our exacting requirements before reaching the market.
- **Innovation at the Core:** Cutting-edge processes and technologies drive our commitment to delivering top-tier security solutions.

With a focus on **precision** and **quality**, we ensure that every product embodies our promise of uncompromised security and customer satisfaction.

## GLOBAL REACH

Our products are available through a robust global network of carefully selected authorized distributors and expert sales representatives. This ensures that customers in over 54 countries have seamless access to cutting-edge security technology, along with personalized support and industry-leading expertise.

## SERVING A DIVERSE CLIENT BASE

Maximum proudly supports a wide range of clients across multiple sectors, demonstrating our versatility and commitment to excellence. Our clientele includes:

- **Installers & Distribution Companies:** Providing reliable solutions for seamless integration.
- **Dedicated Security Centres:** Ensuring top-tier systems for specialized protection.
- **Installation Companies:** Supporting projects of any size with flexible and scalable products.
- **Major Industries & Agricultural Enterprises:** Addressing complex security needs with precision.
- **Defence Sectors:** Delivering robust solutions for the most demanding environments.

With tailored offerings and proven expertise, Maximum is equipped to meet the unique challenges of **every sector we serve**.

## STRATEGIC PARTNERSHIPS FOR INNOVATION

At Maximum, we actively cultivate partnerships with OEM (Original Equipment Manufacturer) and ODM (Original Design Manufacturer) partners, creating synergies that drive growth and innovation.

Through these strategic collaborations, we:

- **Enhance Product Development:** Leveraging shared expertise to create cutting-edge solutions.
- **Expand Market Reach:** Broadening access to global markets with innovative offerings.
- **Stay Ahead of Trends:** Remaining at the forefront of evolving technologies and industry demands.

Our partnerships underscore our commitment to delivering advanced, reliable, and scalable security solutions to clients worldwide.

## ROBUST SUPPLY CAPABILITY

Maximum is built to deliver, no matter the scale. Our advanced operational capabilities ensure we meet the demands of both domestic and international markets with:

- **High-Volume Order Management:** Seamlessly handling large-scale demands.
- **Scalability:** Adapting to meet the evolving needs of our clients.
- **Efficient Delivery:** Timely shipment of high-quality products, every time.

With a focus on reliability and precision, Maximum ensures that our clients receive the products they need, when and where they need them.

*Protecting What  
Matters Most ...*

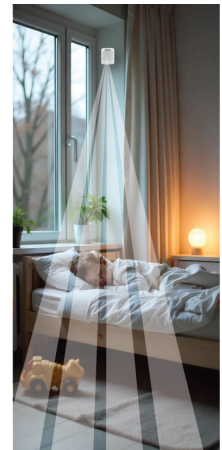

## SECURE, SAFE, MONITORED WELL-BEING

- Wireless, wired and hybrid solutions for both indoor and outdoor installations
- State-of the art hardware
- Comprehensive system control in one app
- Effortless installation, user-friendly operation

## OUR COMMITMENT TO PROTECTION

- **Human Lives:** Ensuring safety in every moment.
- **The Right to Privacy:** Defending your personal space, from home to business.
- **Private Property:** Safeguarding what is yours, so you can feel secure.

## PRODUCT PORTFOLIO: DETECTORS & SENSORS

*Vigilance. Innovation. Expertise*

- Highly secured and encrypted system data
- Minimum false alarms
- Installer and User friendly
- Masking protected by active infrared beams: continuous infrared beam scanning, ensures protection against any attempts to block or mask its field-of-view
- Auto temperature compensation
- Automatic adaptation to background noise
- Remote control and configuration
- Multiple communication channels
- Cloud-based

*SMART. RELIABLE. BUILT TO PROTECT.*

## ◇ OUTDOOR WIRED PIR DETECTORS

### OUT-SMART

Outdoor dual-technology motion detector with anti-masking, pet immunity, and adjustable detection angles. Built for harsh weather.

A versatile outdoor intrusion detector designed with pet immunity and weather resistance. Featuring a dual-technology approach with independent PIR detection zones and a microwave sensor, it offers adjustable sensitivity levels and anti-masking capabilities for accurate alerts. The detector ensures reliable security by triggering alerts when both PIR zones and microwave signals are simultaneously

crossed. With flexible installation height and selective detection angles, **OUT-SMART** provides comprehensive, dependable protection, even in harsh weather conditions.

#### OUT-SMART FEATURES:

- 🧐 Dual Technology: × 2 PIR sensors plus 📡 Microwave sensor
- Flexible installation height, between 0.8 ~1.5 meters
- 🚫🐕 Pet immune
- 🛡️ Anti-masking
- Selectable horizontal detection angle 120°, 105°, 90°
- 🌧️ Weather-resistant
- Internal unit rotates horizontally 180°

*SMART, RELIABLE PROTECTION FOR YOUR OUTDOOR SPACES.*

## GUARD

Outdoor PIR detector with microwave & anti-masking

Versatile Anti-Masking Motion Detector **GUARD** – Combining Passive Infrared (PIR), Active Infrared (AIR), and Microwave technologies, this detector offers exceptional security for industrial, commercial, and residential use. Its robust design, pet immunity, and weather resistance ensure reliable performance in even the most challenging conditions, providing peace of mind wherever it is installed.

#### GUARD FEATURES:

- 🧐 Two PIR sensors
- 📡 Microwave sensor
- 🌧️ Weather-resistant
- 🛡️ Frontal anti-masking by active infrared
- Selectable detection technology combination (AND/OR)
- 🚫🐕 Pet immune
- Wide-angle (110°) field-of-view

#### AVAILABLE MODELS:

GUARD-AV	MA-0-G-102-00-W	up to 12m x 90°, adjustable sensors height & microwave
GUARD	MA-0-G-122-00-W	up to 12m x 90°, adjustable sensor height, microwave & <b>anti-masking</b>
GUARD-AV- BLACK	MA-0-G-102-00-BLA	up to 12m x 90°, adjustable sensors height & microwave, <b>BLACK housing</b>
GUARD - BLACK	MA-0-G-122-00-BLA	up to 12m x 90°, adjustable sensors height, microwave & <b>anti-masking, BLACK housing</b>

*RELIABLE PROTECTION, ANYTIME, ANYWHERE.*

## VIP-PRO

Adjustable horizontal angle view & microwave & anti-masking

A wired PIR detector designed for versatile security, combining weather resistance, anti-masking technology, and flexible installation options. With dual-tech and dual sensors, it ensures reliable intrusion detection for both indoor and outdoor environments, offering enhanced protection against intruders.

### VIP-PRO FEATURES:

-  Dual Technology: × 2 PIR sensors plus  Microwave sensor
-  Microwave sensor
-  Anti-masking
- Shock & Vibration sensor (optional)
- Adjustable shutters for vertical field of view
-  Weather-resistant
- Auto temperature compensation

### AVAILABLE MODELS:

VIP-PRO-AV	MA-0-VIP-102-00-W	up to 12m x 90°, adjustable horizontal angle view & microwave
VIP-PRO	MA-0-VIP-122-00-W	up to 12m x 90°, adjustable horizontal angle view with microwave & <b>anti-masking</b>

*RELIABLE SECURITY, DESIGNED TO ADAPT TO YOUR NEEDS.*

## OUT-LOOK

A water-resistant, pet-immune dual-technology detector with a creep zone and sensitive anti-masking capabilities, ensuring reliable outdoor security.

The **OUT-LOOK** detector ensures precise movement detection and robust protection against interference, safeguarding against any attempt to disable its functionality. Featuring dual lenses, one at the front and another at the lower part, it provides customizable pet immunity by adjusting the lower lens mechanism. Designed for reliable, uninterrupted outdoor security, the OUT-LOOK detector offers enhanced protection in diverse environments.

## OUT-LOOK FEATURES:

- 🧐 Dual Technology: × 2 PIR sensors plus 📡
- Adjustable pet immune (creep zone) sensitivity
- 🌧️ Anti-masking
- Anti-vandal sensor (Shock & Vibration sensor)
- 🚫🐕 Pet immune
- 🌧️ Weather-resistant

## AVAILABLE MODELS:

OUT-LOOK-AV	MA-0-OT-132-00-W	up to 12m x 90°, creep zone detection & microwave
OUT-LOOK	MA-0-OT-152-00-W	up to 12m x 90°, creep zone detection with microwave & <b>anti-masking</b>

*RELIABLE, ADAPTABLE SECURITY THAT ADJUSTS TO YOUR NEEDS.*

# OUTDOOR WIRED CURTAIN DETECTORS

## CURTAIN-CONTROL

Entrance / Window Detector with adjustable vertical view, anti-masking & microwave

This weather-resistant, anti-masking curtain detector creates a 6° narrow protective screen to secure openings and open fields against intruders. It allows free movement within the protected area without triggering false alarms. Designed to verify penetration, Curtain Control combines microwave and PIR technologies, ensuring maximum reliability in challenging environments. Perfect for maintaining security while minimizing disruptions.

## CURTAIN-CONTROL FEATURES:

- Creates a super narrow protective screen of 6°
- 🧐 Combines PIR & Microwave technology
- Selectable detection technology combination: AND/OR
- 🌧️ Weather-resistant
- 🌧️ Anti-masking by active infrared beams
- 90° Mounting bracket (provided)

*ADVANCED PROTECTION FOR YOUR MOST VULNERABLE ENTRY POINTS.*

## CURTAIN-FLT

### Entrance / Window Protection

A flush-mount anti-masking, water-resistant curtain detector with PIR and microwave sensors, specially designed for seamless integration into walls & ceilings, offering maximum protection while complementing architectural design.

**CURTAIN-FLT** –An outdoor, water-resistant motion detector designed for flush installation to offer discreet placement with minimal visibility. Despite its sleek profile, it provides maximum protection, combining PIR and microwave sensors for precise motion detection. Enhanced by active infrared anti-masking technology, CURTAIN-FLT ensures reliable security, even in challenging environments. Ideal for maintaining both security and aesthetic appeal, this detector seamlessly integrates into any outdoor setting.

### CURTAIN-FLT FEATURES:

- Creates a super narrow protective screen of 6°
- Combines PIR & Microwave technology
- Anti-masking by active infrared beams
- Anti-Vandal (Shock & Vibration Sensor), Option
- Flush mount
- Horizontal inclination adjustment of up to +/- 50
- Ceiling or wall mounting (Vertical or Horizontal)

### AVAILABLE MODELS:

CURTAIN-FLT-AV	MA-0-VFL-22-00-W	up to 6m ceiling curtain detector with microwave & immersing box
CURTAIN-FLT	MA-0-VFL-72-00-W	up to 6m ceiling curtain detector with microwave, <b>anti-masking</b> & immersing box

*RELIABLE PROTECTION WITH A SLEEK, LOW-PROFILE DESIGN.*

## CURTAIN-VERSATILE

### Entrance / Window Protection

Designed for ceiling mounting a water-resistant, anti-masking curtain detector equipped with PIR and microwave sensors, designed for reliable motion detection and enhanced security in various environments.

**CURTAIN-VERSATILE** creates a narrow protective screen, resembling a curtain, to secure openings and open fields against intruders. It allows free movement within the protected site without triggering alarms. Specifically designed for ceiling mounting, it offers water-resistant capabilities and is equipped with anti-masking technology. Combining Microwave and PIR technologies, this detector ensures reliable performance in challenging environments while minimizing false alarms, providing enhanced security for both residential and commercial spaces.

### CURTAIN-VERSATILE FEATURES

- Creates a super narrow protective screen of 6°
- Combines PIR &  Microwave sensors
-  Weather-resistant
-  Anti-masking by active infrared beams
- Ceiling or wall mounting (Vertical or Horizontal)
- Adjustable PIR and Microwave detection sensitivity

### AVAILABLE MODELS:

CURTAIN-VERSATILE-AV	MA-0-VV-62-00-W	up to 6m ceiling curtain detector with microwave
CURTAIN-VERSATILE	MA-0-VV-52-00-W	up to 6m ceiling curtain detector with microwave & <b>anti-masking</b>

*RELIABLE, PRECISE PROTECTION FOR YOUR MOST VULNERABLE AREAS.*

## ◇ OUTDOOR WIRED ACTIVE IR DETECTORS

### ACTIVE BARRIER DETECTOR

A robust dual-beam active infrared system, designed for both outdoor and indoor use, providing precise and reliable motion detection.

Featuring an infrared transmitter and receiver, the system triggers and illuminates a red LED when beams are crossed. Its water resistance and immunity to external light interference ensure consistent performance, even in challenging environments. Continuous synchronization between components prevents interference, while easy installation is made possible with adjustable units and a signal strength display for precise alignment. This system excels in reliable motion detection, remaining immune to false alarms for unwavering security.

#### AVAILABLE MODELS:

ACTIVE-30	MA-0-A30-02-00-PC	up to 30 meters outdoors, single channel
ACTIVE-50	MA-0-A50-02-00-PC	up to 50 meters outdoors, single channel
ACTIVE-100	MA-0-A100-02-00-PC	up to 100 meters outdoors, single channel
ACTIVE-200	MA-0-A200-02-00-PC	up to 200 meters outdoors, single channel

#### ACTIVE FEATURES:

- SYNCHRONIZED active infrared beams, to eliminate “cheating” the receiver part by a foreign IR transmitter
- 30/50/100/200-meter effective range
- ☔ Weather-resistant
- Internal vertical and horizontal alignment
- Precise alignment by a built-in scale or externally by connecting a voltmeter
- Adjustable beam interruption time
- Changeover alarm contacts (N.C. / N.O.)

**MAXIMIZE PROTECTION WITH CUTTING-EDGE TECHNOLOGY  
FOR ANY ENVIRONMENT.**

## SLIM-ACTIVE BARRIERS

A detector using active infrared technology and encryption algorithms for superior perimeter security.

**SLIM-ACTIVE BARRIER** – a narrow, metal and ABS combo outdoor detector that utilizes cutting-edge active infrared technology and unique encryption algorithms for superior perimeter protection. Sunlight-resistant and customizable, it can be pre-ordered in different lengths, colours, and infrared beam configurations to meet specific requirements. Ideal for securing luxury homes and buildings with reliable, discreet protection.

A sensor for each side of the window is ideal for panoramic windows with blinds, providing enhanced coverage and reliable intrusion detection in all weather conditions.

### SLIM-ACTIVE BARRIER FEATURES:

-  Weather-Proof Design: Built to withstand outdoor elements, ensuring uninterrupted performance
- Optimal Coverage: Dual sensors effectively monitor both sides of large, panoramic windows 
- Blind Compatibility: Operates seamlessly even with blinds in place
- Discrete Security: Sleek design blends seamlessly into any environment

### APPLICATIONS:

- Panoramic windows in retail, commercial, or residential settings
- Outdoor-facing installations requiring durable, weather-proof solutions

### AVAILABLE MODELS:

SLIM-ACTIVE-2	MA-0-SB-02-02-W	up to 2 meters outdoors, single channel
SLIM-ACTIVE-5	MA-0-SB-02-05-W	up to 5 meters outdoors, single channel
SLIM-ACTIVE-10	MA-0-SB-02-10-W	up to 10 meters outdoors, single channel
SLIM-ACTIVE-20	MA-0-SB-02-20-W	up to 20 meters outdoors, single channel

## ◆ INDOOR WIRED DETECTORS

### 3D-AM

A double sensor PIR detector designed to effectively handle masking scenarios, ensuring reliable security.

**3D-AM** – A cutting-edge security solution with synchronized sensors for precise movement detection. Its dual sensors generate a three-dimensional image, converting analogue signals into digital data for processing by a powerful microprocessor. Offering continuous infrared beam scanning, it ensures robust protection against any attempts to block or mask its field-of-view, delivering reliable security whether the system is armed or disarmed.

#### 3D-AM FEATURES:

- 3-Dimensional Thermal Imaging, by Synchronized Double Sensor
- Selectable PIR and anti-masking detection sensitivity
- Anti-masking by active infrared beams
- Wide-angle (140°) field-of-view
- Auto temperature compensation
- Automatic adaptation to background noise

#### AVAILABLE MODELS:

3D-AV	MA-0-3D-02-00-W	up to 12m x 90°, adjustable sensor height
3D-AM	MA-0-3D-32-00-W	up to 12m x 90°, adjustable sensor height & <b>anti-masking</b>

### CURTAIN-MINI-PRO

Entrance / Window Detector

A miniature Curtain PIR detector designed to detect entrance attempts through windows, doors, and more, offering discreet and reliable security.

**CURTAIN-MINI-PRO** – Elevate your indoor security with this advanced, miniature curtain detector. Engineered to protect entry points such as windows and doors, it creates a precise 6° narrow protective shield—like an invisible curtain—that secures openings and open fields against

intruders. Integrating dual sensor technology, CURTAIN-MINI-PRO combines traditional PIR detection with microwave capabilities for enhanced accuracy and rapid response.

Its state-of-the-art anti-masking feature ensures that any attempt to obstruct the sensor's field is promptly detected, preserving the integrity of your security perimeter. Designed specifically for indoor use, it allows free movement within the protected area without triggering false alarms, offering discreet, intelligent protection for both homes and businesses.

#### CURTAIN-MINI-PRO FEATURES:

- Creates a super narrow protective screen of 6°
- Adjustable PIR detection sensitivity
- Auto temperature compensation
- Automatic adaptation to background noise
- 90 degrees Mounting bracket (provided)
-  Anti-masking by active infrared beams

#### AVAILABLE MODELS:

CURTAIN-MINI-AV	MA-0-VM-32-00-W	up to 10m, mounting brackets included
CURTAIN-MINI-PRO	MA-0-VM-52-00-W	up to 10m, <b>microwave &amp; anti-masking</b> , mounting brackets included

*SLEEK. INTELLIGENT. UNCOMPROMISING PROTECTION.*

### MAX-GLASS-AM

Glass break detector with anti-masking

A sensitive mini glass break detector equipped with anti-masking protection, offering precise detection of glass breakage while preventing interference, ensuring reliable security for your space.

**MAX-GLASS-AM** – Offers exceptional glass break detection with Real Self-Test (R.S.T.) functionality using a built-in buzzer. It differentiates crystal glass-breaking sounds from other noises, triggering alerts only for matching glass break sound images stored in its memory. With reliable anti-masking capabilities, it ensures accurate detection and protection, minimizing false alarms.

#### MAX-GLASS-AM FEATURES:

- Dual frequency flex & break identification
-  Anti-masking by active infrared beams
- Detects glass breaking of all glass types: plated, laminated, wired, tempered, etc.
- R.S.T. – Real Self-Testing, by a built-in buzzer
- Wall, ceiling or corner mounting

#### AVAILABLE MODELS:

MAX-GLASS	MA-0-MG-02-00-W	Glass break detector
MAX-GLASS-AM	MA-0-MG-32-00-W	Glass break detector with <b>anti-masking</b>

*ENHANCED SECURITY FOR YOUR GLASSED AREAS.*

## ◇ TWO-WAY OUTDOOR WIRELESS DETECTORS

### OUT-SMART-WL

A dual-technology outdoor intruder detector with adjustable detection angles, anti-masking protection, and pet immunity for superior, reliable security.

**OUT-SMART-WL** – A versatile outdoor intrusion detector designed to deliver accurate alerts with dual-technology: independent PIR detection zones and a microwave sensor.

Equipped with pet immunity, weather resistance, adjustable sensitivity levels, and anti-masking capabilities, OUT-SMART-WL ensures reliable security in challenging environments.

Its selective detection angles and flexible installation height provide tailored protection, while the simultaneous crossing of both PIR zones and microwave signals triggers precise alarms. Designed to withstand the elements, OUT-SMART offers unmatched reliability and comprehensive security.

#### OUT-SMART-WL FEATURES:

- 🧐 Dual PIR sensors
- 📡 Microwave sensor
- Flexible installation height, between 0.8 ~1.5 meters
- 🚫🐕 Pet immune
- 🛡️ Anti-masking by active infrared beams
- ☁️ Weather-resistant
- Selectable horizontal detection angles 120°, 105°, 90°
- Internal unit rotates horizontally 180°

*SMART PROTECTION, BUILT TO LAST.*

## GUARD-WL

A versatile anti-masking motion detector combining Passive Infrared, Active Infrared, and Microwave technologies for reliable security.

**GUARD-WL** – A versatile motion detector that combines Passive Infrared, Active Infrared, and Microwave technologies to deliver exceptional security for industrial, commercial, and residential applications. With its robust design, pet immunity, anti-masking capabilities, and water resistance, GUARD-WL ensures reliable performance even in the most challenging conditions.

### GUARD-WL FEATURES:

-  Two PIR sensors
-  Microwave sensor
-  Weather-resistant
-  Frontal anti-masking, by active infrared
- Selectable detection technology combination (AND/OR)
-  Pet immune
- Wide-angle (110 degrees) field-of-view

### AVAILABLE MODELS:

GUARD-AV-WL	MA-0-G-61-00-W	up to 12m x 90°, with adjustable sensors height & microwave
GUARD-WL	MA-0-G-51-00-W	up to 12m x 90°, with adjustable sensors height, microwave & anti-masking

*RELIABLE SECURITY, BUILT TO WITHSTAND THE ELEMENTS.*

## VIP-PRO-WL

Motion Detector

Advanced outdoor dual-tech detector with dual PIR & Microwave sensors, featuring antimasking for superior intrusion detection.

Experience unparalleled protection with our wireless PIR detector, designed for versatile security in both indoor and outdoor environments.

Engineered with water resistance, anti-masking technology, and dual-tech detection, it ensures precise and reliable intrusion detection even in challenging conditions.

With dual sensors for enhanced accuracy, remote programmability for seamless adjustments, and flexible installation options, this detector adapts to your security needs effortlessly. Whether safeguarding a home, business, or outdoor perimeter, trust in cutting-edge technology to keep you protected.

#### VIP-PRO-WL FEATURES:

-  2 PIR sensors. Selected sensor sensitivity
-  Anti-masking by active infrared beams
-  Weather-resistant
- Adjustable shutters for vertical field of view
- Auto temperature compensation

#### AVAILABLE MODELS:

VIP-PRO-AV-WL	MA-0-VIP-81-00-W	up to 12m x 90°, with adjustable horizontal angle view
VIP-PRO-WL	MA-0-VIP-91-00-W	up to 12m x 90°, adjustable horizontal angle view & <b>anti-masking</b>

*SMART, ADAPTABLE, AND BUILT FOR ULTIMATE SECURITY.*

## CURTAIN-2-PRO-WL

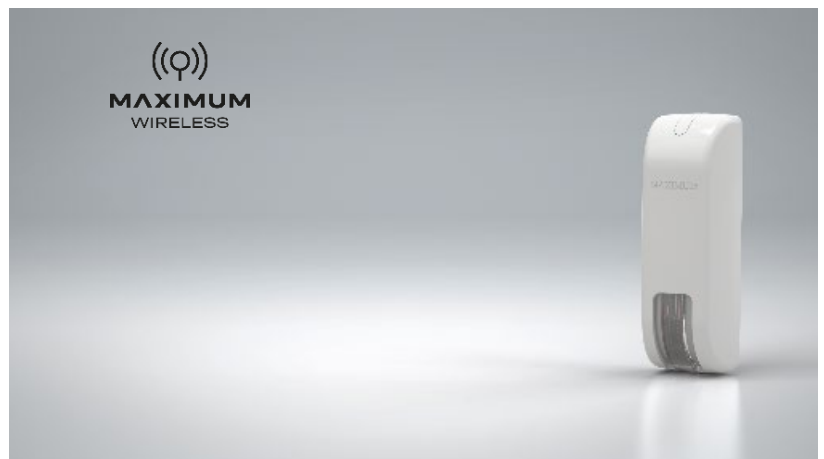

Entrance / Window Detector

A weather-resistant wireless curtain detector built to withstand harsh conditions for reliable outdoor security.

Introducing **CURTAIN-2-PRO-WL**—engineered to withstand even the harshest weather conditions, CURTAIN-2-PRO-WL is built with water resistance for reliable outdoor performance. Equipped with 2 PIR and microwave sensors, it offers enhanced motion detection, providing a comprehensive solution for protecting large outdoor areas.

With antimasking capability, CURTAIN-2-PRO-WL ensures that it remains fully operational even in challenging environments, preventing intruders from blocking or tampering with the detection zone.

Whether securing perimeters, outdoor entrances, or sensitive areas, CURTAIN-2-PRO-WL delivers unmatched reliability, performance, and protection, no matter the conditions.

## CURTAIN-2-PRO-WL FEATURES:

- Creates a narrow protective screen of 6°
-  Anti-masking by active infrared beams
-  Weather-resistant
-  Microwave sensor
- Remote programming of all detector's features
- Highly immune to false alarms
- Auto temperature compensation
- Automatic adaptation to background noise
- 90° mounting bracket (optional)

## AVAILABLE MODELS:

CURTAIN-2P-WL	MA-0-V2P-01-00-W	up to 10m, mounting brackets included
CURTAIN-2PA-WL	MA-0-V2P-31-00-W	up to 10m, with <b>anti masking</b> , mounting brackets included
CURTAIN-2PM-WL	MA-0-V2P-61-00-W	up to 10m, with <b>microwave</b> , mounting brackets included
CURTAIN-2-PRO-WL	MA-0-V2P-51-00-W	up to 10m, with <b>microwave &amp; anti-masking</b> , mounting brackets included

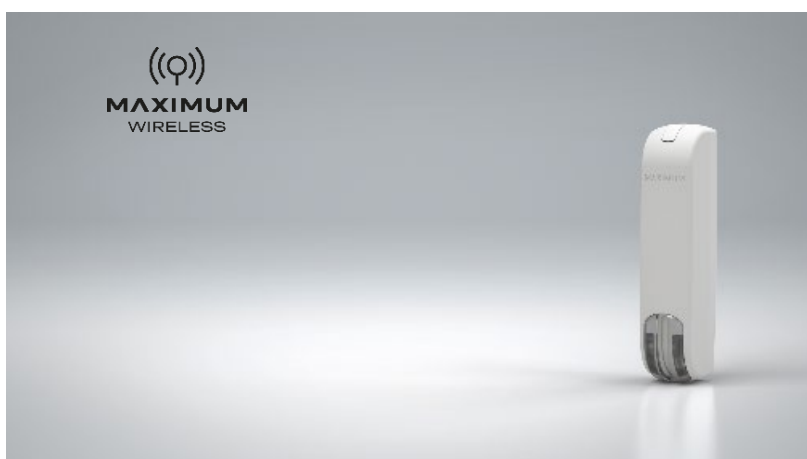

*GREAT FOR SECURING NARROW OPENINGS AND EXPOSED PERIMETERS.*

## CURTAIN-SLIM-WL

Entrance / Window Detector

**CURTAIN SLIM** – Outdoor curtain detector with PIR sensor and integrated microwave for enhanced reliability and precise motion detection, specifically designed for narrow spaces.

One of the world's narrowest curtain detectors, seamlessly combining cutting-edge detection algorithms with reliable technology for unmatched security. Designed for extremely narrow installation spaces, it offers discreet yet powerful protection—perfect for luxury homes and high-end businesses.

## CURTAIN-SLIM-WL FEATURES:

- Creates a super protective screen of 6°
-  Anti-masking by active infrared beams
- Remote programming of all detector's features
- Highly immune to false alarms
- Auto temperature compensation
- Automatic adaptation to background noise
- 90° Mounting bracket (provided)

## AVAILABLE MODELS:

CURTAIN-SLIM-AV-WL	MA-0-VS-61-00-W	2-way outdoor wireless curtain detector, thin and elegant, up to 10m, with microwave, mounting brackets included
CURTAIN-SLIM-WL	MA-0-VS-51-00-W	2-way outdoor wireless curtain detector, thin and elegant, up to 10m, with microwave & <b>anti masking</b> , mounting brackets included

*PRECISION SECURITY ELEGANTLY DESIGNED.*

## ◇ TWO-WAY INDOOR WIRELESS DETECTORS

### CORNER-WL

Discreet wireless motion detector is designed for seamless indoor protection, providing reliable motion detection without compromising aesthetics.

Introducing **CORNER-WL** – the ultimate discreet security solution designed to protect your space without compromising on style. This miniature, two-way wireless PIR intruder detector is engineered for seamless corner installations, blending effortlessly into any environment while delivering reliable, intelligent surveillance.

#### CORNER - WL FEATURES:

- Miniature
- Remote programming of all detector's features
-  Anti-masking by active infrared beams
- Auto temperature compensation
- Automatic adaptation to background noise
- For indoor operation only

#### AVAILABLE MODELS:

CORNER-AV-WL	MA-0-C-01-00-W	2-way indoor wireless PIR detector, up to 12m x 90°
CORNER-WL	MA-0-C-31-00-W	2-way indoor wireless PIR detector, up to 12m x 90°, <b>with anti-masking</b>

*SLEEK. INTELLIGENT. UNOBTRUSIVE SECURITY.*

## **CURTAIN-MINI-WL**

Entrance / Window Detector

Miniature wireless curtain detector designed to detect entry attempts through windows, doors, and more with instant alerts.

**CURTAIN-MINI-WL** – a miniature Curtain PIR detector crafted for powerful security at entrances, windows, doors, and more. This compact, discreet device creates an invisible security barrier, instantly detecting any unauthorized movement at key entry points.

Its ultra-compact design ensures it blends seamlessly into any environment, offering discreet protection without drawing attention—perfect for safeguarding windows, doors, and other vulnerable areas. Despite its small form factor, Curtain Mini WL provides exceptional coverage, effectively defending against intrusion attempts.

CURTAIN-MINI-WL creates a 3° narrow protective screen, resembling a curtain, to secure openings and open fields against intruders while permitting free movement within the protected area without triggering alarms.

Whether for residential, commercial, or high-security environments, CURTAIN-MINI-WL ensures reliable protection and peace of mind.

### **CURTAIN-MINI-WL FEATURES:**

- Creates a narrow protective screen of 3°
- Adjustable PIR detection sensitivity
- Auto temperature compensation
- Automatic adaptation to background noise
- A/D signal analyser
- Powerful microprocessor controlled
- SPC - Smart Processing Controller
- High level of RFI/EMI immunity
- 90 degrees mounting bracket (provided)
- For indoor use only

***PROTECT YOUR SPACES WITH CURTAIN-MINI-WL –  
SMALL IN SIZE, BIG ON SECURITY.***

## TWO-WAY INDOOR WIRELESS MAGNETS

### MAGNET-WL

Magnetic Contact Detector

**MAGNET-WL** - a compact, indoor two-way wireless magnetic contact designed for seamless performance and reliable security for door openings. Ideal for both residential and commercial settings, it ensures peace of mind with efficient and versatile protection.

#### MAGNET-WL FEATURES:

- Miniature
- Bi-directional
- Communication range up to 1,500m in an open space
- Activation threshold of 1 cm

### VBR-WL (SOON)

Magnetic contacts combined with vibration and shock detector

A compact wireless vibration detector that provides discreet yet robust protection, ensuring reliable security for sensitive areas without compromising on performance.

## TWO-WAY INDOOR WIRELESS SAFETY DETECTORS

### SMOKE-WL

Smoke Detector

Indoor smoke detector with bi-directional functionality for enhanced reliability and performance.

**SMOKE-WL** – a reliable indoor smoke detector designed to provide early detection of smoke and fire hazards. Featuring bi-directional functionality, it ensures enhanced performance by detecting smoke from multiple angles, reducing the risk of false alarms while offering faster and more accurate alerts. Ideal for homes, offices, and commercial spaces, SMOKE-WL is an essential safety device that helps protect your space and loved ones from potential fire dangers.

#### SMOKE-WL FEATURES

- Detects smoke when the smoke reaches the detector
- Built-in buzzer for smoke detection indication
- For indoor operation only

*EFFICIENT, DEPENDABLE, AND DESIGNED FOR YOUR SAFETY.*

### FLOOD-WL

Flood Detector

Instantly alerts to indoor leaks, providing swift protection and preventing water damage.

Compact Wireless Indoor Flood Detector **FLOOD-WL** – a sleek, wireless detector designed to instantly alert you to indoor leaks, providing swift protection for your space. Perfect for areas prone to water damage, it helps prevent costly repairs by detecting leaks early, ensuring peace of mind and protecting your home or business from potential flooding. Easy to install and highly reliable, this device ensures your space stays safe from unexpected water damage.

#### FLOOD-WL FEATURES

- Miniature
- Bi-directional communication range up to 2,500m in an open space
- Can be easily relocated as needed to different areas prone to flooding or water leaks
- Equipped with electrodes that detect the presence of water when it comes into contact with the sensor

## **SIREN-WL**

Sounder

A powerful indoor and outdoor security solution with versatile features, including multiple siren sounds for enhanced protection.

**SIREN-WL** – a long-range, powerful security solution crafted for both indoor and outdoor environments. Equipped with multiple siren sounds, remote programming, and tamper protection, it ensures comprehensive, customizable security for your property. Whether you're safeguarding a home, office, or commercial space, SIREN-WL offers versatile and dependable protection with advanced features to keep you secure at all times.

### **SIREN-WL FEATURES**

- 4 Selectable siren sounds
- For indoor and outdoor operations
- Two options for power supply: 3V CR2 Lithium Battery or 12V DC
- Remote programming

## **SHAPE THE FUTURE OF SECURITY WITH US**

Are you a distributor, integrator, or security professional looking for cutting-edge intrusion detection solutions?

Join forces with **Maximum Security** – a trusted global manufacturer with over 35 years of excellence in the security industry.

- Reliable, military-grade technology
- Easy integration with third-party panels
- Full support, training & marketing tools
- No import taxes from Israel to Europe
- Global presence in over 54 countries
